

# WarmComm 4.0

COMMUNICATION SOFTWARE  
FOR LABORATORY DRYING  
OVENS AND INCUBATORS

## ON-LINE SUPPORT

### How the on-line support works?

1. Please register in our web page <http://wc4.bmt.cz>. In case of need please change the language by clicking on the flag icon.
2. You will get a user name and password sent to your e-mail. Please store the user name and password for later use.
3. Contact your local distributor or our company by e-mail or by phone for activation.
4. Through the web page <http://wc4.bmt.cz> it is possible to download
  - the current version of the program
  - the current user manual
  - request online support for technical problems
  - use more support service from BMT.

### Your benefits

- Updated WarmComm versions
- Updated WarmComm manuals
- Updated language localization
- On-line support
- One registration for all user's installations
- On-line communication by coded data saved on the producer's server
- Complete free support for current or future WarmComm installations
